

How do you make sure you're getting the perfect fit for your group? Start by checking our size charts on pages 430-431. They will give you the general measurements for each size.

For even more detailed sizing info, you can request a spec sheet for the garment you're considering. This spec sheet will give you precise measurements for the chest, body, sleeve and collar.

Measurements are great, but nothing beats the real thing! To ensure you get the perfect fit, you can also purchase samples.
